

AUTHOR'S INSTRUCTIONS

Introduction

The international journal of pharmaceutical research and allied sciences (IJPRAS) is a peer-reviewed multi-disciplinary pharmaceutical & scientific quarterly publishing journal serves scientific information, studies, and scientific outcomes of various international pharmaceutical & scientific industries institutes and forums.

The Manuscripts for publication in IJPRAS are accepted on the understanding that the authors have obtained the necessary authority for publication. Manuscripts with multi-authors imply the consent of each of the authors. Submission of manuscript to IJPRAS is considered to imply that it has not been either published or not being considered for publication elsewhere.

Type of Manuscript

Review articles: These are the critical surveys of novel literature & studies in the field of literature research. The review article should bring up the most important current topics or present interpretative and critical accounts, but not simple compilation, on subjects of general interest. The work need not be complete; however, supporting experimental data must be described. They should be around 15-20 pages.

Research Article: original research article should consist of unpublished results of original research, which must be presented in detail to comply the reproducibility of the described experiments and desired output. This research article should reveal design of experimental studies that gives a significant contribution to knowledge.

Technical notes: Technical notes are asked to have new, important information which has not been published elsewhere and to be considering for immediate publication as a need. A statement showing the reason for urgent publication is to be given by author. The limit for technical note is it should not exceed 5-6 pages. Authors are requested to mention the reason why the manuscript should be treated as a technical note in the cover letter.
